PROFESSIONAL SUMMARY

Full-stack Software Engineer with 3 years of experience building scalable, high-performance enterprise applications with React and Spring Boot. Skilled in React 19,React Native, TypeScript, Java 21, Spring Boot 4, Spring Security, SQL Server and JWT, with hands-on experience in secure REST APIs, multi-tenant architecture, real-time features, and AI-driven workflow automation.

WORK EXPERIENCE

Software Engineer | Solverminds Solutions and Technologies, Chennai Oct 2023 – Present

CRM Application – Multi-Tenant Sales Platform *React 19 | TypeScript | TanStack Router | React Query | Zustand | Spring Boot | OpenAI | N8N*

• Built a multi-tenant CRM with role-based access and tenant branding — Lead, Opportunity, Account, Activity, and Dashboard modules using AG Grid, React Hook Form, and Zod.

• Implemented full lead lifecycle (assignment, status tracking, notes, Lead-to-Opportunity conversion) with React Query, Zustand, and OpenAPI-generated type-safe clients.

• Integrated AI-powered Voice-to-Text and Image-to-Lead (OpenAI, Google Cloud Vision) and built ECharts productivity dashboards, cutting manual data entry.

ANCHOR — Multi-Tenant Vessel Husbanding & Port Operations Platform *React 18 | TypeScript | Redux Toolkit | Spring Boot 3 | Java 17 | SQL Server | JWT*

• Architected ~80% of the frontend — app shell, RBAC/module gating, reusable DataTable/transaction UI, and 40+ lazy-loaded screens — integrated to Spring REST APIs via RTK Query.

• Built end-to-end EPDA, accounting, and payment UIs (vendor payments, receipts, cheques), Husbanding operations, and document OCR/passport extraction to reduce manual entry.

• Integrated the ERAX AI chatbot for natural-language queries, SQL generation, and interactive charts; contributed ~20% backend on VHS financial/EPDA modules over dual SQL Server datasources.

PAMS E-Commerce Platform – Multi-Tenant Shipping Self-Service Platform *Next.js 13 | React 18 | Tailwind CSS | MUI 7 | AG Grid*

• Built a multi-tenant shipping self-service platform with dynamic theming, feature flags, and an enterprise design system supporting multiple shipping brands.

• Developed core shipping modules (Booking, Shipping Instructions, Bill of Lading, VGM, CRO, Invoice Tracking) and operational dashboards with SLA indicators and vessel schedules.

PAMS – Multiple Principal Shipping & Port Agency Platform *JSF | PrimeFaces | Java EE | EJB | CDI | WildFly | SQL Server | Jasper Reports | LDAP | EDI*

• Developed a multi-principal port-agency platform (Operations, Commercial) with LDAP-based RBAC and agency-level security using JSF/PrimeFaces and Jasper Reports.

• Built shipping modules (Rate Request,Tariff, Surcharge, Load & Discharge Planning , Export Invoice) and compliance features (Detention & Demurrage, GST, VAT, e-Invoicing), and automated EDI batch processes for manifest exchange and invoicing.

TECHNICAL SKILLS

Languages: Java 21, TypeScript, JavaScript, SQL

Frontend: React 19/18,React Native, Next.js 13, TanStack Router, React Router, React Query, Redux Toolkit, Zustand, Tailwind CSS, Nx Monorepo, Enterprise Design System

Backend: Spring Boot 4, Spring Security, REST APIs, JWT, JPA/Hibernate, EJB, CDI, Java EE, WildFly, OpenAPI/Swagger, SSE, Web Push

AI & Automation: OpenAI API, Google Cloud Vision, AI Chatbots, N8N Workflow Engine, Wispr Flow,Langchain

Database & Integration: SQL Server, Multi-Datasource Architecture, Stored Procedures, Indexing, Redis, EDI, Batch Processing, Document Processing

Tools & Concepts: Git, GitHub, Maven,Andriod Studio,Postman, JIRA, Jasper Reports; OOP,Data Structure, Design Patterns, Multithreading, Multi-Tenant & Microservices Architecture

EDUCATION

Bachelor of Engineering in Computer Science and Engineering Aug 2019 – Jul 2023

Mahendra Engineering College, Namakkal | CGPA: 8.9/10

CERTIFICATIONS

React JS & Spring Boot Course: Certified Course July 2023 - Sep 2023
